Entrance Examinations for
International Students

1. Number of Students to be Admitted

Department	Program/Field	Number of Students to be Admitted
Department of Integrated Science and Technology	Program for Symbiotic Science and Technology/ Field of Fisheries Resources	Limited
	Program for Symbiotic Science and Technology/ Field of Chemistry and Materials Science	
	Program for Symbiotic Science and Technology/ Field of Environmental Resilience	
	Program for Symbiotic Science and Technology/ Field of Smart City Design	
	Program for Symbiotic Science and Technology/ Field of Electrical Engineering and Mechanical Systems	
	Program for Symbiotic Science and Technology/ Field of Information and Data Science	
	Program for Frontiers of Marine Science	

2. Eligibility for Application

Non-Japanese citizens (excluding those with Japanese permanent resident status) who fulfill any of the following requirements are eligible to apply for the program.

- (1) Those who have completed (or will complete by March 2024) 16* years of standard school education in countries other than Japan.
- (2) Those who have completed (or will complete by March 2024) 16 years of standard school education in Japan through the completion of required correspondence courses conducted by authorized schools outside Japan.
- (3) Those who have completed (or will complete by March 2024) 16 years of standard school education, including undergraduate courses at a foreign educational institute in Japan recognized by the Minister of Education, Culture, Sports, Science, and Technology.
- (4) Those who have completed a course (*1) lasting at least three years at a non-Japanese university or other educational institution (*2) and who have been conferred or are expected to be conferred a degree equivalent to a bachelor's degree by March 31, 2024.

*1: This includes completing correspondence courses conducted by the aforementioned foreign educational institution in Japan, as well as completing courses at an institute recognized and specifically designated within the educational system of the aforementioned foreign countries.

*2: This is restricted to institutions evaluated by an accredited authority of the respective non-Japanese government or a relevant organization in regard to their comprehensive educational and research activities. Alternatively, the institution may be specifically designated as equivalent by the Minister of Education, Culture, Sports, Science, and Technology.

- (5) Those who have been recognized by this Graduate School as having an academic ability equivalent to or greater than a Bachelor's degree, through an individual screening of eligibility for admission, and who will be 22 years of age by 31 March, 2024, (see "3. Screening of Application Eligibility").

*If you have earned a bachelor's degree based on your country's standard educational system but have less than 16 years of education, please consult the Student Affairs Division of the Graduate School of Integrated Science and Technology.

For applicants to the Program for Symbiotic Science and Technology/Field of Environmental Resilience, examinations will be conducted in two distinct categories: "Engineering" or "Environmental."

Consequently, applicants for this field must opt for either "Engineering" or "Environmental."

In the case of the Program for Symbiotic Science and Technology/Field of Electrical Engineering and Mechanical Systems, examinations will similarly be segregated into two categories: “Electrical and Electronic” or “Mechanical.” Applicants interested in this field are, therefore, required to make a choice between “Electrical and Electronic” or “Mechanical.”

The Program for Frontiers of Marine Science conducts its examinations in conjunction with the Program for Symbiotic Science and Technology. As such, applicants for the Program for Frontiers of Marine Science are requested to also select a field/track closely related to their desired field of study.

Submission Documents	Note
Application Form (Form 1)	Place a circle in the box corresponding to your desired course, field, or track, and be sure to write down the name of the faculty member you wish to have as your supervisor. Applicants for the Program for Frontiers of Marine Science should place a checkmark in the box corresponding to the field (or track) within the Symbiotic System Science course that closely aligns with their desired field of study. Fill out the application form issued by the institute. * Consult with your prospective academic advisor before filling in the form. Except for those who have already submitted for the Preliminary Eligibility Screening.
Photo Card, Admission Ticket, and Payment of Certificate for the Entrance Examination Fee (Form2)	Applicants must clearly specify the course, field, and track they are interested in on their application forms. For those applying to the Program for Symbiotic Science and Technology/Field of Environmental Resilience, you must indicate either "Engineering" or "Environmental Studies" as their chosen track. For those applying to the Program for Symbiotic Science and Technology/Field of Electrical Engineering and Mechanical Systems, you must specify either "Electrical and Electronic Engineering" or "Mechanical Engineering" as their chosen track. For those applying to the Program for Frontiers of Marine Science, they should enter the field and track of the Program for Symbiotic Science and Technology that they have marked with a check (✓) on their application forms, into the designated area for preferred field and track. Attach your ID photos (size L 4 cm × W 3 cm, upper body, no hat or cap, full face view, taken within three months) on the prescribed Photo Card and Admission Ticket. Please submit the document as a double-sided printout.
Certified (original) Copy of Graduation Certificate or Expected Completion Certificate	Issued under the authority of the university president or dean of the institution from which the applicant graduated or is expected to graduate. A photocopy of the diploma is not acceptable. Except for those who have already submitted for the Preliminary Eligibility

(Highest degree) Education	Screening. *Current students and alumni of this university are not required to submit this certificate, as it can be verified within the institution.
Official Transcript (Highest degree) Education	Issued under the authority of the university president or dean of the institution from which the applicant graduated or is expected to graduate. Except for those who have already submitted for the Preliminary Eligibility Screening. In addition, the grade scale, showing the grading system issued by the university, must be submitted. * Students who are expected to complete a specialized course at a junior college or technical college must submit both their junior college or technical college transcript and their specialized course transcript.
Document proving acceptance from the prospective advisor.	Document indicating approval of acceptance by the prospective advisor (such as a copy of an email or similar communication).
Proof of legal status in Japan (International Applicants only)	A photocopy of your Residence Card or the Visa passport showing the Visa section for verification. Except for those who have already submitted for the Preliminary Eligibility Screening.

(E-mail Address: seisan_daigakuin@ml.nagasaki-u.ac.jp)

7. Screening Method

Selection for each course will be based on applicants' performance in interviews and either a short essay or an oral examination.

- (1) Examination Date and Time (Determined by each program/field/Track)

Friday, 22 December, 2023, from 10:00 A.M. onward	Program for Symbiotic Science and Technology	Field of Chemistry and Materials Science Field of Environmental Resilience Engineering Track Field of Environmental Resilience Environmental Track Field of Smart City Design Field of Electrical Engineering and Mechanical Systems Electrical and Electronic Track Field of Electrical Engineering and Mechanical Systems Mechanical Track Field of Information and Data Science
	Program for Frontiers of Marine Science	Fields other than the Fisheries Track
Wednesday, 27 December, 2023, from 10:30 A.M. onward	Program for Symbiotic Science and Technology	Field of Fisheries Resources
	Program for Frontiers of Marine Science	Field within the Fisheries Track

- (2) Allocation of points for the Academic Achievement Examination

Program (Field/ Track)	Interview	Short Essay	Oral Examination	Total Score
Program for Symbiotic Science and Technology (Field of Fisheries Resources) Program for Frontiers of Marine Science (Field within the Fisheries Track)	10	90	—	100
Other than the above programs (Fields/ Tracks)	30	—	70	100

(3) Acceptance Criteria

The successful applicants will be determined based on a comprehensive assessment, prioritizing those with higher scores on academic examinations and other criteria.

Please note that if an applicant's performance in the interview is exceptionally poor, they may be rejected irrespective of their performance in the oral examination.

The oral examination and interview will be evaluated in the following manner.

Method of Evaluation

In each program (field/track), the assessment will be conducted in the form of individual interviews involving multiple interviewers. Applicants will be holistically evaluated based on their motivation for applying to the program, motivation to study, academic standing, and social skills using the submitted application documents as a reference.

In addition, within the Program for Symbiotic Science and Technology (Field of Fisheries Resources) and the Program for Frontiers of Marine Science (Field within the Fisheries Tracks), examinations will be conducted based on the explanation of current research content and desired research activities post-admission. Applicants will also be evaluated on their foundational academic skills and specialized knowledge.

Oral Examination Evaluation Method

Applicants will be holistically evaluated based on their foundational academic skills, specialized knowledge, and proficiency in the Japanese language.

Program/Field	Evaluation of foundational academic skills, specialized knowledge, and proficiency in a foreign language (Japanese or English)
Program for Symbiotic Science and Technology (Field of Chemistry and Materials Science)	Applicants are required to provide an explanation of the content of their graduation research or equivalent investigative activities. The evaluation will assess the level of understanding concerning the context and significance of the research, as well as the foundational and specialized knowledge that underpins it.
Program for Symbiotic Science and Technology (Field of Environmental Resilience)	<p>Engineering For foundational academic skills, evaluations will focus on Mathematics and English. In terms of specialized knowledge, applicants will be assessed on their proficiency in one subject—either Structural Mechanics, Soil Mechanics, Hydraulics, or Urban Planning—that they choose at the time of application. Proficiency in the Japanese language will also be assessed.</p> <p>Environmental Examinations will be conducted based on the explanation of current research content and desired research activities post-admission. Applicants will be evaluated on both their foundational academic skills and specialized knowledge. Proficiency in languages such as Japanese and English will also be assessed.</p>
Program for Symbiotic Science and Technology (Field of Smart City Design)	<p>For foundational academic skills, evaluations will focus on Mathematics and English. In terms of specialized knowledge, candidates will be assessed on their proficiency in either Structural Mechanics or Material Mechanics.</p> <p>In Addition, basic proficiency in English will be considered based on scores from one of the following tests: TOEIC® Listening & Reading Test, TOEFL iBT®.</p>

Program for Symbiotic Science and Technology (Field of Electrical Engineering and Mechanical Systems)	Applicants are required to provide an explanation of the content of their graduation research or equivalent investigative activities. The evaluation will assess the level of understanding concerning the context and significance of the research, as well as the foundational and specialized knowledge that underpins it. In Addition, for applicants whose native language is not English, their comprehension of technical English will be assessed.
Program for Symbiotic Science and Technology (Field of Information and Data Science)	Examinations will be conducted in English, Mathematics, Computer Science, or Data Science to assess applicants' foundational academic skills, specialized knowledge, and proficiency in the Japanese language.
Program for Frontiers of Marine Science (Field other than Fisheries Tracks)	Same evaluation criteria as in each field/track of the Program for Symbiotic Science and Technology)

(4) Entrance Examinations over the Internet

International Students outside Japan may be eligible for an Interview and an Oral Examination over the internet.

Applicants interested in the Online Interview are required to consult their prospective academic advisor in advance.

8. Examination Venue

Faculty of Information and Data Science Building, School of Engineering Building, Faculty of Environmental Science Building, Faculty of Fisheries Building, Nagasaki University

1-14 Bunkyo, Nagasaki, Japan 852-8521

9. Notes on the Examination

- (1) On the afternoon of the day before the examination, notices specifying the rendezvous points for the day of the exam will be posted at the entrance of the Engineering Building No.1's piloti, the main entrance of the Department of Environmental Science, and the main entrance of the Department of Fisheries Science. Applicants are advised to confirm their examination rooms (rendezvous points); however, they are not allowed to enter the rooms.
- (2) Applicants must bring the Admission Ticket issued by the Graduate School of Integrated Science and Technology on the examination day.
- (3) Applicants must be at the designated rendezvous point 20 minutes before the examination starts. The rendezvous point will be unlocked 30 minutes before the examination starts. (Latecomers will not be permitted to take the examination.)
- (4) All cellular phones must be turned off before entering the examination room.
- (5) Applicants from distant areas need to plan the trip carefully in consideration of the possibility of inconveniences caused by the weather conditions. The examination date may be postponed in case of an unforeseen event, such as a natural disaster, on the examination day.
- (6) In principle, no supplementary examination will be available. However, a re-examination may be conducted in case of an unforeseen event.

受験上の注意事項

Note

- (1) On the afternoon of the day before the examination, notices specifying the rendezvous points for the day of the exam will be posted at the entrance of the Engineering Building No.1's piloti, the main entrance of the Department of Environmental Science, and the main entrance of the Department of Fisheries Science. Applicants are advised to confirm their examination rooms (rendezvous points); however, they are not allowed to enter the rooms.
- (2) Applicants must bring the Admission Ticket issued by the Graduate School of Integrated Science and Technology on the examination day.
- (3) Applicants must be at the designated rendezvous point 20 minutes before the examination starts. The rendezvous point will be unlocked 30 minutes before the examination starts. (Latecomers will not be permitted to take the examination.)
- (4) All cellular phones must be turned off before entering the examination room.
- (5) Applicants from distant areas need to plan the trip carefully in consideration of the possibility of inconveniences caused by the weather conditions. The examination date may be postponed in case of an unforeseen event, such as a natural disaster, on the examination day.
- (6) In principle, no supplementary examination will be available. However, a re-examination may be conducted in case of an unforeseen event.
