For applicants to the Program for Symbiotic Science and Technology/Field of Environmental Resilience, examinations will be conducted in two distinct categories: "Engineering" or "Environmental."

Consequently, applicants for this field must opt for either "Engineering" or "Environmental."

In the case of the Program for Symbiotic Science and Technology/Field of Electrical Engineering and Mechanical Systems, examinations will similarly be segregated into two categories: "Electrical and Electronic" or "Mechanical." Applicants interested in this field are, therefore, required to make a choice between "Electrical and Electronic" or "Mechanical."

The Program for Frontiers of Marine Science conducts its examinations in conjunction with the Program for Symbiotic Science and Technology. As such, applicants for the Program for Frontiers of Marine Science are requested to also select a field/track closely related to their desired field of study.

Submission Documents	Note
Application Form (Form 1)	Place a circle in the box corresponding to your desired course, field, or track, and be sure to write down the name of the faculty member you wish to have as your supervisor. Applicants for the Program for Frontiers of Marine Science should place a checkmark in the box corresponding to the field (or track) within the Symbiotic System Science course that closely aligns with their desired field of study. Fill out the application form issued by the institute. * Consult with your prospective academic advisor before filling in the form. Except for those who have already submitted for the Preliminary Eligibility Screening.
Photo Card, Admission Ticket, and Payment of Certificate for the Entrance Examination Fee (Form2)	Applicants must clearly specify the course, field, and track they are interested in on their application forms. For those applying to the Program for Symbiotic Science and Technology/Field of Environmental Resilience, you must indicate either "Engineering" or "Environmental Studies" as their chosen track. For those applying to the Program for Symbiotic Science and Technology/Field of Electrical Engineering and Mechanical Systems, you must specify either "Electrical and Electronic Engineering" or "Mechanical Engineering" as their chosen track. For those applying to the Program for Frontiers of Marine Science, they should enter the field and track of the Program for Symbiotic Science and Technology that they have marked with a check (✓) on their application forms, into the designated area for preferred field and track. Attach your ID photos (size L 4 cm × W 3 cm, upper body, no hat or cap, full face view, taken within three months) on the prescribed Photo Card and Admission Ticket. Please submit the document as a double-sided printout.

Certified (original) Copy of Graduation Certificate or Expected Completion Certificate (Highest Education degree)	Issued under the authority of the university president or dean of the institution from which the applicant graduated or is expected to graduate. A photocopy of the diploma is not acceptable. Except for those who have already submitted for the Preliminary Eligibility Screening. *Current students and alumni of this university are not required to submit this certificate, as it can be verified within the institution.
Official Transcript (Highest Education degree)	Issued under the authority of the university president or dean of the institution from which the applicant graduated or is expected to graduate. Except for those who have already submitted for the Preliminary Eligibility Screening. In addition, the grade scale, showing the grading system issued by the university, must be submitted. * Students who are expected to complete a specialized course at a junior college or technical college must submit both their junior college or technical college transcript and their specialized course transcript.
Document proving acceptance from the prospective advisor.	Document indicating approval of acceptance by the prospective advisor (such as a copy of an email or similar communication).
Proof of legal status in Japan (International Applicants only)	A photocopy of your Residence Card or the Visa passport showing the Visa section for verification. Except for those who have already submitted for the Preliminary Eligibility Screening. Payment Period

(3) Acceptance Criteria

The successful applicants will be determined based on a comprehensive assessment, prioritizing those with higher scores on academic examinations and other criteria.

Please note that if an applicant's performance in the interview is exceptionally poor, they may be rejected irrespective of their performance in the oral examination.

The oral examination and interview will be evaluated in the following manner.

Method of Evaluation

In each program (field/track), the assessment will be conducted in the form of individual interviews involving multiple interviewers. Applicants will be holistically evaluated based on their motivation for applying to the program, motivation to study, academic standing, and social skills using the submitted application documents as a reference.

In addition, within the Program for Symbiotic Science and Technology (Field of Fisheries Resources) and the Program for Frontiers of Marine Science (Field within the Fisheries Tracks), examinations will be conducted based on the explanation of current research content and desired research activities post-admission. Applicants will also be evaluated on their foundational academic skills and specialized knowledge.

Oral Examination Evaluation Method

Applicants will be holistically evaluated based on their foundational academic skills, specialized knowledge, and proficiency in the Japanese language.

Program/Field	Evaluation of foundational academic skills, specialized knowledge, and proficiency in a foreign language (Japanese or English)
Program for Symbiotic Science and Technology (Field of Chemistry and Materials Science)	Applicants are required to provide an explanation of the content of their graduation research or equivalent investigative activities. The evaluation will assess the level of understanding concerning the context and significance of the research, as well as the foundational and specialized knowledge that underpins it.
Program for Symbiotic Science and Technology (Field of Environmental Resilience)	Engineering For foundational academic skills, evaluations will focus on Mathematics and English. In terms of specialized knowledge, applicants will be assessed on their proficiency in one subject—either Structural Mechanics, Soil Mechanics, Hydraulics, or Urban Planning—that they choose at the time of application. Proficiency in the Japanese language will also be assessed. Environmental Examinations will be conducted based on the explanation of current research content and desired research activities postadmission. Applicants will be evaluated on both their foundational academic skills and specialized knowledge. Proficiency in languages such as Japanese and English will also be assessed.
Program for Symbiotic Science and Technology (Field of Smart City Design)	For foundational academic skills, evaluations will focus on Mathematics and English. In terms of specialized knowledge, candidates will be assessed on their proficiency in either Structural Mechanics or Material Mechanics. In Addition, basic proficiency in English will be considered based on scores from one of the following tests: TOEIC® Listening & Reading Test, TOEFL iBT®.

Program for Symbiotic Science and Technology (Field of Electrical	Applicants are required to provide an explanation of the content of their graduation research or equivalent investigative activities. The evaluation will assess the level of understanding concerning
Engineering and Mechanical	the context and significance of the research, as well as the foundational and specialized knowledge that underpins it.
Systems)	In Addition, for applicants whose native language is not English,
	their comprehension of technical English will be assessed.
Program for Symbiotic Science and Technology (Field of Information and Data Science)	Examinations will be conducted in English, Mathematics, Computer Science, or Data Science to assess applicants' foundational academic skills, specialized knowledge, and proficiency in the Japanese language.
Program for Frontiers of Marine Science (Field other than Fisheries Tracks)	Same evaluation criteria as in each field/track of the Program for Symbiotic Science and Technology)

(4) Entrance Examinations over the Internet

International Students outside Japan may be eligible for an Interview and an Oral Examination over the internet

Applicants interested in the Online Interview are required to consult their prospective academic advisor in advance.

8. Examination Venue

Faculty of Information and Data Science Building, School of Engineering Building, Faculty of Environmental Science Building, Faculty of Fisheries Building, Nagasaki University

1-14 Bunkyo, Nagasaki, Japan 852-8521

9. Notes on the Examination

- (1) On the afternoon of the day before the examination, notices specifying the rendezvous points for the day of the exam will be posted at the entrance of the Engineering Building No.1's piloti, the main entrance of the Department of Environmental Science, and the main entrance of the Department of Fisheries Science. Applicants are advised to confirm their rendezvous points (examination rooms); however, they are not allowed to enter the rooms.
- (2) Applicants must bring the Admission Ticket issued by the Graduate School of Integrated Science and Technology on the examination day.
- (3) Applicants must be at the designated rendezvous point 20 minutes (Program for Symbiotic Science and Technology and Program for Frontiers of Marine Science: 10 minutes) before the examination starts. The rendezvous point will be unlocked 30 minutes before the examination starts. (Latecomers will not be permitted to take the examination.)
- (4) All cellular phones must be turned off before entering the examination room.
- (5) Applicants from distant areas need to plan the trip carefully in consideration of the possibility of inconveniences caused by the weather conditions. The examination date may be postponed in case of an unforeseen event, such as a natural disaster, on the examination day.
- (6) In principle, no supplementary examination will be available. However, a re-examination may be conducted in case of an unforeseen event.
